

Please give us a feedback!

Firstly, thank you for your interest in the Courses on General Primate Biology. We are pleased that you participated in one of the courses and would like to know if you enjoyed it and/or found it informative. Therefore, we would like to ask you to answer a few questions to learn from your experiences and to improve the following courses.

Thank you very much!

With best regards,

Deike Terruhn, Course Coordinator

1. How did you hear about the courses - for the first time, and when? Did you hear about them anywhere else?

2. Which kind of expectations did you have?

3. Did the course meet your expectations?

4. Did you feel something was missing concerning content or organization of the course? What would you like to see improved?

5. What did you like within the course?

6. Please, use the space below for any other suggestions or comments.
